

Adoption and Change Management

Create end-user awareness and adoption of new technologies

The Problem

Migrating an entire organization to a new technology platform can be an overwhelming and daunting task. However, it is a task that cannot be ignored as new technologies allow for more effective workflows and reduced costs.

The Solution

Spyglass MTG is proud to have achieved the Microsoft Adoption and Change Management Advanced Specialization. This means that Spyglass meets the highest standards for service delivery and support in this area.

Spyglass is made up of industry-leading experts who have extensive experience and proven success in providing adoption and change management services while driving Microsoft 365 usage and organizational change.

Microsoft Technology Change Management Best Practices:

- Identify your key stakeholders, champions, and user profiles
- Identify & select your business scenarios
- Conduct a pilot that includes business users, champions, and IT professionals
- Design, launch, and manage your adoption campaign
- Build a champion program alongside your service deployment
- Provide a standard feedback method
- Measure & share success
- Adjust your messaging and methods based on feedback
