

AI NAVIGATOR

A repeatable framework that aligns strategy, foundations and delivery to move AI from experimentation to enterprise scale with accelerated speed and accuracy.

A CONTINUOUS PROCESS THAT BUILDS STRATEGICALLY ALIGNED AI

Three Tracks. One Destination.

TRACK ONE

Strategy

BUSINESS & AI JOURNEY TO VALUE

Prioritize high-value use cases, align initiatives to business goals and define measurable ROI.

TRACK TWO

Enablement

DATA & AI FOUNDATIONS

Establish secure, governed landing zones and trusted platforms across Azure, Data, Apps and Power Platform.

TRACK THREE

Scale

AI DELIVERY & SCALING PATTERNS

Build and scale AI apps and agents with reusable patterns, governance, operations and FinOps.

BUSINESS USE-CASE SCORING

Rank by business value — high-value use cases are prioritized

ENVISIONING AND DEPLOYMENT

Turn prioritized use cases into POCs, technology foundations and AI at scale

Navigator combines your business strategy with our technical expertise, proven processes, and proprietary tools & accelerators to jumpstart your AI journey — meeting you where you are and guiding you to where you want to go.

EVERY SUCCESSFUL AI JOURNEY STARTS WITH A DESTINATION. AI NAVIGATOR PROVIDES THE MAP.

WE MEET YOU WHERE YOU ARE -
AND GUIDE YOU WHERE YOU WANT TO GO.

FROM AI CURIOSITY TO BUSINESS TRANSFORMATION

NAVIGATE THE FUTURE WITH CONFIDENCE

Each track pairs a defined process with proprietary tools

DON'T START WITH TECHNOLOGY START WITH A PLAN

Most AI initiatives fail because organizations jump directly into tools without first establishing the strategy, governance, data foundation, and business alignment required for long-term success.

AI Navigator provides a structured framework to identify the right opportunities, prioritize high-value use cases, reduce implementation risk, and create a clear path from experimentation to enterprise-scale adoption. AI Navigator helps organizations move faster, make smarter investments, and realize business value with confidence.
