

# Power Platform Development Studio

Your Own Power Platform Team on Demand at a Fraction of the Cost

### The Problem

The Power Platform is fantastic, but the development on this platform can quickly become complicated for the citizen developer and enterprises to manage.

### The Solution

Spyglass' Power Platform Development Studio provides customers on-demand capacity to automate your business processes, create applications, generate interactive reports, and provide post development support. The Power Platform Development Studio is a full-service model from requirements, scoping, design, development, support as well as administration and management for the platform as desired.

### Power Platform Development Studio Benefits

- **Time to Market**- turn apps around quicker with on-demand access to skills across all Power Platform areas
- **Cost Savings**- hire us for a fraction of the price of a full-time team- packages start at just \$25k!
- **Flexibility**- prepay for work, use it when you need it, and add funds at any time
- **Repeatability**- Spyglass' proven methodology and toolkit provides repeatable process and accelerators to speed the development of your solution
- **Efficiency**- our proprietary inventory process prevents recreation of like solutions
- **Ongoing Support**
